Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art does not show phase matching between a screw bit and a recess of a screw wherein the screw bit is moved toward the screw and into the screw recess until the measured magnetic flux reaches a predetermined value, in combination with the other features of the claim. The remaining claims, based on their dependency to claim 1, are allowed for the same reasons therefor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
